SUMMARY

Motivated and detail-oriented Computer Application graduate with a strong interest in technology and a commitment to learning new tools and systems. Looking to start a career in the IT field where I can apply my academic knowledge, analytical thinking, and adaptability to real-world challenges.

PROJECTS

Super Drive-Vehicle Showcase Platform

Created a responsive vehicle showcase platform featuring car listings, company information, service details, and test drive booking functionality. Built using HTML, CSS, Bootstrap, and JavaScript with focus on responsive UI and user experience.
